

**Ron Rausch No. 23, Watertown**

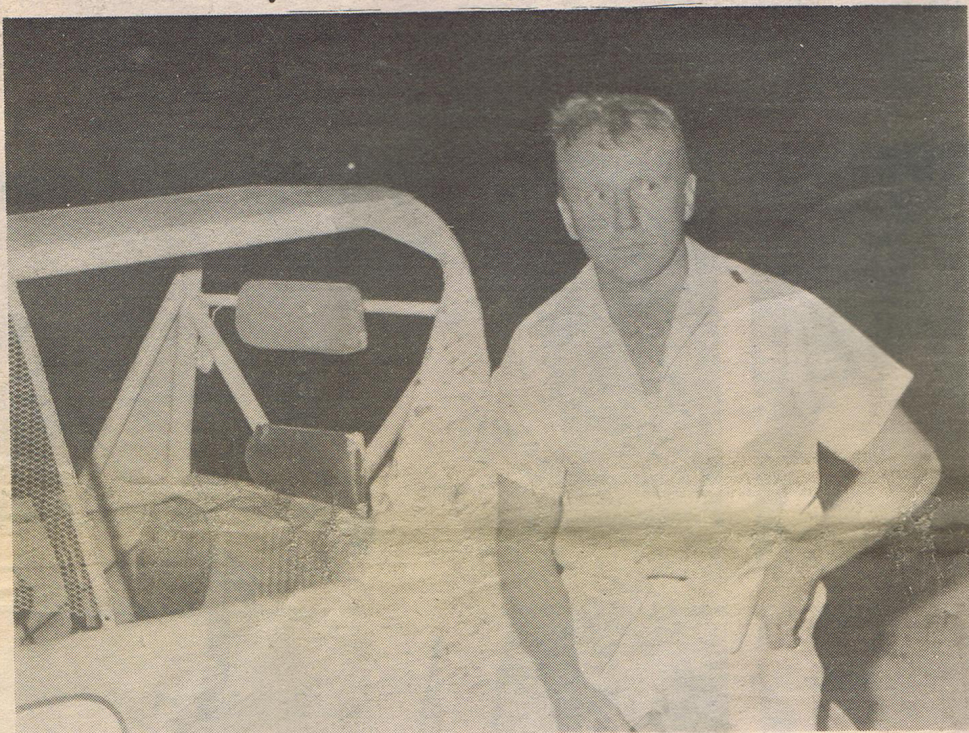

Car number 23 will be driven by Watertown native Ron Rausch in the class A stock division of today's races.

His little Chevelle racer is powered by a stock 283 engine. He is currently in his rookie season as a stock car driver

and has earned himself a reputation as the man to watch in the future after finishing fourth in the point standings at Brookings.

He is married and has four children.

**Larry Heinzerling No. 82, Huron**

Engine problems have plagued Huron's Larry Heinzerling so far this season, but he hopes to have them solved well-enough to run competitively in this year's State Fair classic.

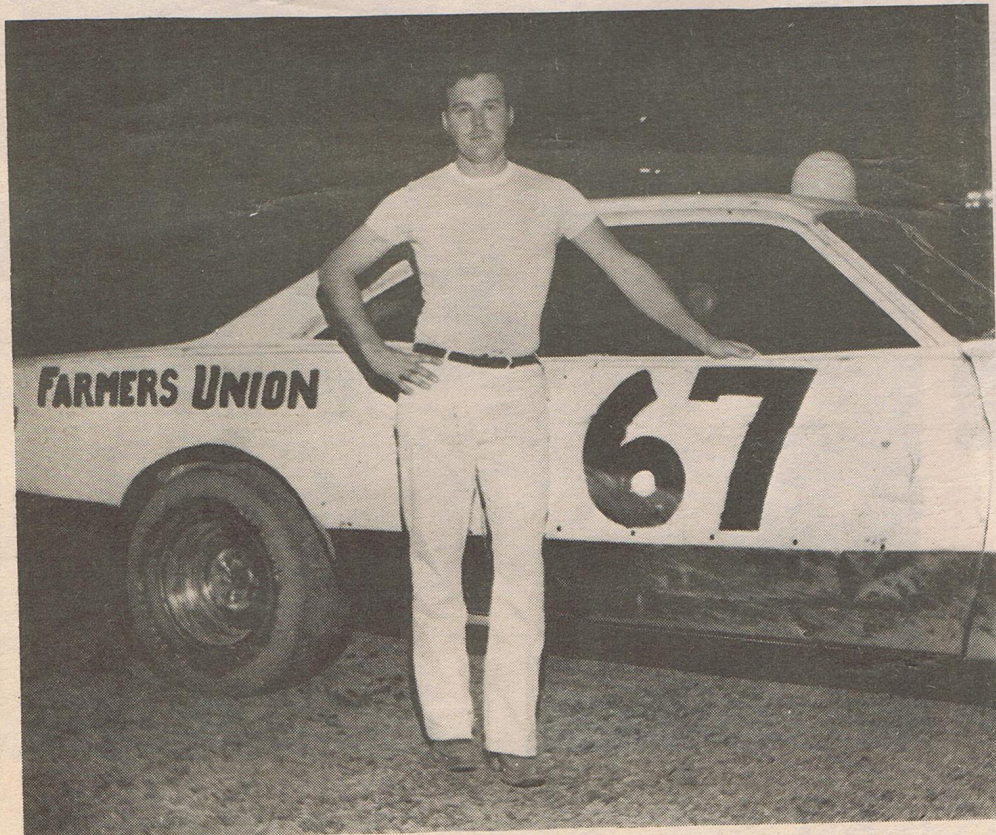

Heinzerling's old racer has a new face and a new engine and could easily be one of the sharpest, fastest modifieds of the track.

He has sat out much of the season as a result of two blown engines but he opened it up at Miller's Speedway last Saturday in preparation for today's event.

After seven years of modified racing he considers Huron as his home track despite the fact that he hasn't driven here since early this season.

He is married and has six kids.

**Ted Wettestad, No. 67, Redfield**

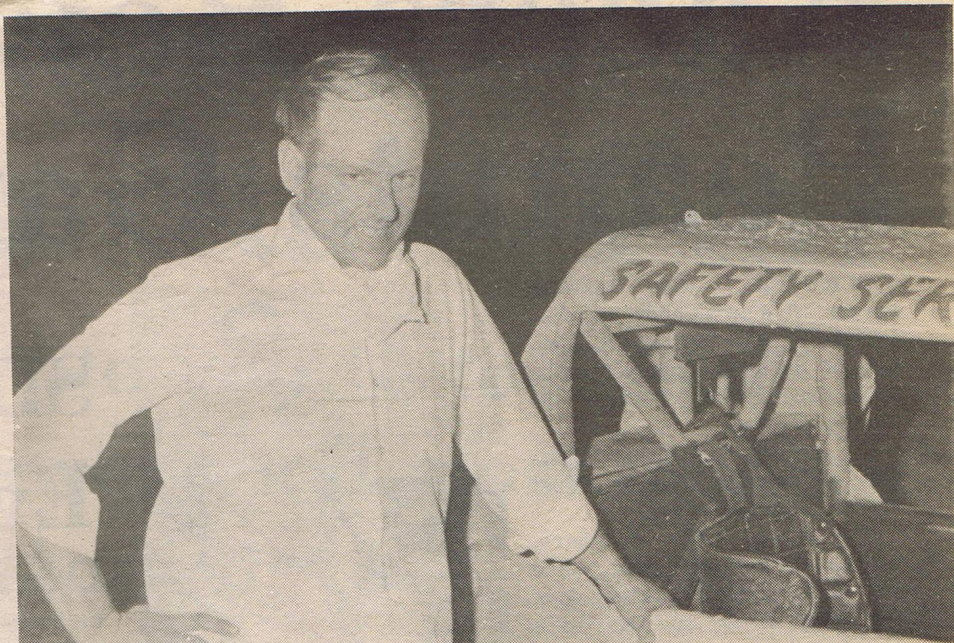

The spirited 1967 Ford that will be seen in today's superstock program is driven by Redfield's Ted Wettestad.

The father of two children,

is currently finishing his third year as an automobile racer.

His Ford is powered by a 390-cubic inch engine. He considers Miller as his home track.

**Les Frohling, No. 33, Aberdeen**

This little green modified leaves a big green trail as it blazes around tracks at break-neck speeds. The car number is 33, and the driver is Aberdeen's Les Frohling.

Les is married, has four kids, and calls Aberdeen's Brown County Fairgrounds Speedway his

home track.

He has spent all of his 10 years of racing in the modified class and he has learned his trade well. Currently he rides third in point standings at Aberdeen but he also spends time at Pierre and Miller tracks.

**Ron Sangster, No. 138, Faulkton**

A former member of the Delbert Wild Racing Team, Faulkton's Ron Sangster is completing his first year of racing at the State Fairgrounds here today.

Sangster's 1955 hobby stock Ford has a 312-cubic inch engine. He and his wife, Kay, have no children.
